

BUS & TRANSIT ASSAULT PREVENTION & SAFETY

COMMITTEE

Follow us on Social Media!

Report an assault!

These reports will be handled internally and shared with the General Chairperson and State Directors in the affected jurisdictions for appropriate action.

BTAPS is a committee established to provide members with a resource outside their employers/carriers for reporting assaults properly and securely.

MISSION

BTAPS, established in August 2023, is to lead as a dedicated part of SMART-TD, setting and upholding uncompromising standards to systematically combat and prevent acts of aggression affecting the transportation community.

ACCOMPLISHMENTS

We've lobbied for member safety through state efforts, Capitol Hill advocacy, and support for protective laws while pushing for penalty awareness in advertising.

GOALS

Our focus now is on stronger law enforcement ties, tougher assault penalties, enhanced security measures, and advancing protective legislation.
